

At FORCE, we understand it better

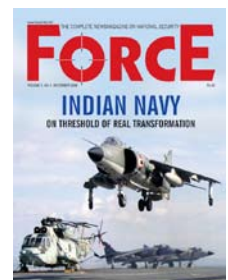

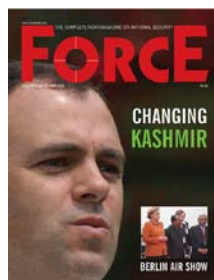

# Because National Security is Not a Joke

Threats inside, threats outside, challenges within, challenges without. India's national security has never demanded so much attention before.

FORCE, the monthly newsmagazine, puts threats and challenges in perspective, laying the focus where it ought to be...

- the defence forces and its operational needs
- terrorism and counter-terrorism
- procurements, imports and indigenisation
- nuclear weapons, delivery systems and non-proliferation regimes
- homeland security and Paramilitary forces
- strategic and geo-political issues that impact on India

Now in its 7th year, FORCE covers all this in an interactive reader-friendly style. Watch out for the new design of FORCE in January 2010!

Pick up your copy today.
